Virtual Symposium:  
**Empowering Research in the MENA  
Region**

October 30<sup>th</sup>, 08:45 PM, Makkah time  
During IFSO MENAC Virtual Conference

ETHICON

## Overview

Research is essential to enable Surgeons and physicians to practice evidence-based medicine and best treat their patients. Without Research, it would be difficult to advance the treatment solutions and to find the most effective methods of care for patients!

In this Symposium, the faculty will elaborate on why Research is needed in the MENA Region and how we can synergize efforts and resources to encourage Research initiatives. Furthermore, the session will highlight the considerations required to conduct a strong research that could lead to reliable conclusions.

Join us and feel free to raise your questions during the discussions!

## Faculty

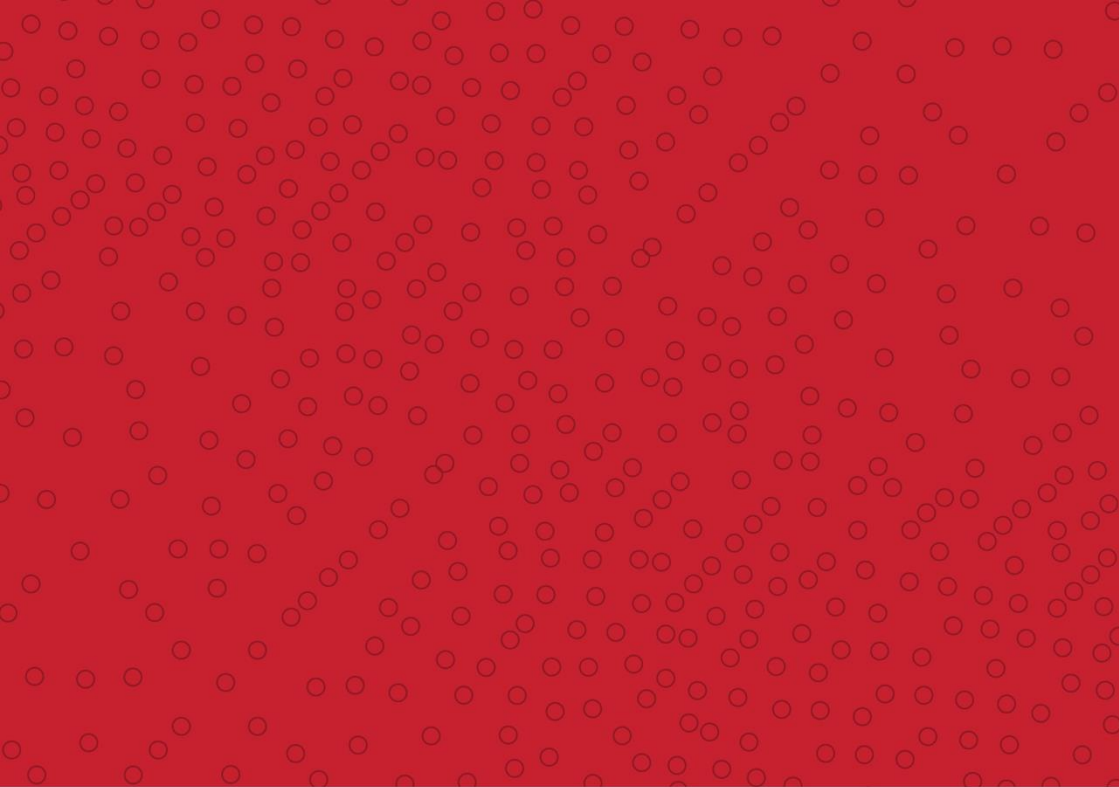

**Bassem Safadi**  
Lebanon

**Karl Miller**  
UAE

# Agenda

<b>08:45</b>	<b>Welcome &amp; Introduction</b>	<b>Faysal Abdelmajid</b>
